

BA in Social Sciences and Humanities (BA-SSH)

Ambedkar University Delhi's undergraduate programmes at Karampura Campus aim to offer its students a unique liberal arts education that acquaints them with diverse approaches to knowledge. The undergraduate programmes at AUD encourage students to think critically and creatively, to analyse and reason, to communicate effectively, and to draw evidence-based conclusions. It aims to achieve a balance between the range and depth of the subjects studied.

The unique aspect of undergraduate programmes at AUD is that there are common courses for foundational skills comprising language, writing skills, communication skills, analytical reasoning as well as introductory orientation to the social sciences. This is done through a blend of common foundational courses, languages, core courses and a wide range of elective courses. Students experience the flexibility of choosing courses from more than one interdisciplinary area in order to develop a broader perspective on social sciences and humanities. They also have the opportunity to transfer from one programme to another, provided they meet certain criteria.

The AUD Karampura Campus undergraduate programmes are delivered through a total of 96 credits over six semesters to be earned in the following manner:

Courses	Minimum Credits
Foundation Courses	24
Core Courses	48
Elective courses offered at Karampura Campus, AUD by the various undergraduate programmes.	24

BA in Social Sciences and Humanities (BA-SSH)

The BA in Social Sciences and Humanities (SSH) in Karampura Campus is conceived as an innovative programme offered along with three other BA programmes in the campus, i.e. BA in Law and Politics, BA in Global Studies, and BA in Sustainable Urbanism. The BA-SSH programme is structured and complemented by the orientation of the other three BA programmes that seek to craft their own respective niche through an interdisciplinary route. We are then looking at the SSH programme as the site where a critical blending of the thrust of the three BA programmes - in Politics, Urbanism and Globality – is envisioned.

The programme takes cognizance of the diverse interests and needs of the students pursuing undergraduate education. Through creative designing of courses, pedagogical models, and programme structure, the BA-SSH programme introduces students to new learning paradigm while facilitating certain continuity with their school education. These twin aspirations are sought to be inculcated by way of imparting training in skill-based abilities and knowledge-oriented components. Students of BA-SSH aiming to pursue MA programmes at AUD and other institutions or seeking employment opportunities after the completion of their degree will be

accordingly equipped with the necessary knowledge and capacities to compete in the charted fields.
